

Translate Bio to Present at the 7th Annual Truist Securities Life Sciences Summit

April 28, 2021

LEXINGTON, Mass., April 28, 2021 (GLOBE NEWSWIRE) -- Translate Bio (Nasdaq: TBIO), a clinical-stage messenger RNA (mRNA) therapeutics company developing a new class of potentially transformative medicines to treat or prevent debilitating or life-threatening diseases, today announced that Ronald Renaud, chief executive officer, will participate in a fireside chat at the 7th Annual Truist Securities Life Sciences Summit on May 5, 2021 at 10:30 a.m. EST.

A live webcast of the session will be accessible through the "Events and Presentations" page of the Company's website at <https://investors.translate.bio/investors/news-and-events>. A replay of the webcasts will be archived on the Translate Bio's website for 30 days following the presentation.

About Translate Bio

Translate Bio is a clinical-stage mRNA therapeutics company developing a new class of potentially transformative medicines to treat diseases caused by protein or gene dysfunction, or to prevent infectious diseases by generating protective immunity. Translate Bio is primarily focused on applying its technology to treat pulmonary diseases with a lead pulmonary candidate being evaluated as an inhaled treatment for cystic fibrosis (CF) in a Phase 1/2 clinical trial. Additional pulmonary diseases are being evaluated in discovery-stage research programs that utilize a proprietary lung delivery platform. Translate Bio also believes its technology may apply broadly to a wide range of diseases, including diseases that affect the liver. Additionally, the platform may be applied to various classes of treatments, such as therapeutic antibodies or protein degradation. Translate Bio is also pursuing the development of mRNA vaccines for infectious diseases under a collaboration with Sanofi Pasteur.
